Boogie Team Sales Outreach and Client Development Portfolio

Celestine Chimaobi Nweke | Lagos State, Nigeria | +234 902 655 4843 | celestinenweke76@gmail.com | LinkedIn

1. Professional Profile

Data analyst skilled in data cleaning, analysis and visualization with SQL (Microsoft SQL Server 2022), Excel, Power BI and Tableau, applying for sales outreach and client development work with Boogie Team. I collect and transform datasets, build reports, identify trends and keep records reliable, skills that carry directly into researching prospects, qualifying leads and managing CRM follow-up. Fluent in English, with experience in remote, hybrid and on-site settings. Available for an immediate start in full-time, part-time or contract roles.

2. Why I Am a Good Fit for Boogie Team

I bring strong communication, analytical, organizational and record-management skills that are essential for successful sales outreach and client development. Through my work at Innoventa Hub, Life and Hope Pharmacy and Springboard, I have learned to analyze business information, maintain accurate records, identify trends and support operational efficiency.

This experience has strengthened my attention to detail, problem-solving and ability to understand business needs. I am comfortable using digital tools, including Microsoft Excel, to organize information, track activities and maintain reliable records. I am fluent in English and understand the importance of clear, professional communication with clients and decision-makers.

I am eager to apply these skills to researching prospects, conducting outreach, qualifying potential clients, managing CRM records, following up with leads and booking sales meetings. I am a quick learner, highly organized and motivated to contribute to Boogie Team's growth by building professional relationships and connecting businesses with staffing solutions that meet their needs.

3. Relevant Work Experience

Data Analyst, Innoventa Hub (on-site, 2024-2026)

- Collected, cleaned and analyzed datasets to generate actionable business insights.

- Built reports and dashboards using Microsoft Excel and data visualization tools.
- Identified trends and patterns to support business decisions and operational efficiency.

Data/Records Assistant, Life and Hope Pharmacy (hybrid, 2025)

- Managed and analyzed inventory and sales records to track stock levels and trends.
- Kept data accurate through consistent entry and record-keeping, and maintained organized datasets for operational use.

Data Services Contributor, Springboard (remote, 2024-2025)

- Performed data indexing, auditing and review of large datasets to maintain high data quality.
- Identified and corrected inconsistencies, and prepared clean, dependable datasets.

4. Sample Cold Email

Subject: Quick idea for [Company Name]'s [hiring need, e.g. staffing for new roles]

Hi [First Name],

I noticed [Company Name] is [specific observation, e.g. expanding into new markets / hiring for a sales team]. Teams at this stage often find that finding and hiring the right people takes longer than planned.

Boogie Team helps businesses find staffing solutions that match their needs, without a long recruitment process. For a company like yours, that could mean faster access to suitable candidates for [roles they hire for].

Would you be open to a 15-minute call this week or next to see whether it's a fit? If this isn't your area, I'd appreciate a pointer to the right person.

Best regards, Celestine Nweke [phone] | [email]

5. Cold-Call Script

Opener (10 seconds): "Hi [Name], this is Celestine from Boogie Team. I know I'm calling out of the blue. Do you have 30 seconds for me to say why I called, and then you can decide if it's worth continuing?"

Reason for call: "We work with [type of company] to provide staffing solutions that match their needs. I'm calling because [specific trigger, e.g. I saw you recently launched X]."

Bridge to a question: "Out of curiosity, how are you currently handling staffing and hiring?"

Handling objections

- *"Not interested."* "Understood. Is that because it's not a priority right now, or because you already have something in place?"
- *"Send me an email."* "Happy to. So I send something relevant, what's the one thing you'd most want it to cover?"
- *"No budget."* "That's fair. Many clients start by seeing the return first. Could I share a short overview so you have it for later?"

Close: "Could we book 15 minutes on [day] at [time] or [day] at [time]? I'll send a calendar invite right after we hang up."

6. Discovery Questions

1. What are your main goals for the next quarter or year?
2. How do you currently find and hire new staff?
3. What has worked well, and what hasn't?
4. What happens when a role stays open longer than planned?
5. Which roles are hardest to fill?
6. Who else is involved in deciding on a staffing partner?
7. What would a successful result look like for you in 90 days?
8. Do you have a timeline or budget range in mind?

7. CRM Follow-Up Framework

Stage	Action	Timing	Record in CRM
New lead	Research and first outreach (email or call)	Day 0	Source, contact, company notes
Attempt 2	Follow-up email with one new piece of value	Day 3	Response status
Attempt 3	Call plus short voicemail or message	Day 7	Call outcome
Attempt 4	Final check-in or "close the loop" email	Day 14	Next step or nurture decision
Discovery booked	Send agenda and confirm	24 hours before	Meeting date, attendees

Stage	Action	Timing	Record in CRM
Post-call	Summary email and agreed next steps	Within 24 hours	Pain points, decision-makers, deal stage
Nurture	Share useful content or updates	Every 4-6 weeks	Last contact date

Principles: log every touchpoint the same day; set a next-action date on every record; review the pipeline weekly; track reply rate, meetings booked and conversion by stage. My reporting background (Power BI, Excel) lets me turn this activity into clear dashboards.

8. Education and Certifications

- BSc Biochemistry, Abia State University Uturu
- BSc Information Technology (in progress) and Associate Degree in Technical Support Engineering (in progress), Ensign College
- BYU Pathway Connect certificate
- NYSC completed
- Certifications and coursework: Power BI PL-300 preparation, SQL Data Reporting, Querying SQL Server 2022, Data Analytics 1 and 2, Versant English 2026

9. Transferable Skills

- **Communication:** fluent English; clear, professional writing and speaking with clients and decision-makers.
- **Analytical thinking:** trend analysis and data interpretation to understand business needs.
- **Organization and record management:** accurate records, CRM-style tracking and reliable datasets in Excel.
- **Prospect research and qualification:** data-driven targeting backed by attention to detail.
- **Problem-solving and efficiency:** identifying inconsistencies and supporting operational improvements.
- **Adaptability:** quick learner with remote, hybrid and on-site experience.
